

MISSISSIPPI DEPARTMENT OF CORRECTIONS
ANNUAL REPORT

FISCAL YEAR 1999

STATE OF MISSISSIPPI

DEPARTMENT OF CORRECTIONS

JAMES V. ANDERSON
COMMISSIONER

January 14, 2000

The Honorable Ronnie Musgrove
Governor of Mississippi

Dear Governor Musgrove:

In compliance with §47-5-10 (n), Mississippi Code of 1972 Annotated, the Mississippi Department of Corrections is forwarding to you the Fiscal Year 1999 Annual Report.

I am proud of the accomplishments of the Agency in Fiscal Year 1999, and look forward to increasing the efficiency and effectiveness of the Mississippi Department of Corrections in Fiscal Year 2000.

If you have any questions regarding the attached report, please do not hesitate to write or call me.

Sincerely,

James V. Anderson

MISSISSIPPI DEPARTMENT OF CORRECTIONS

Mission / Policy Statement

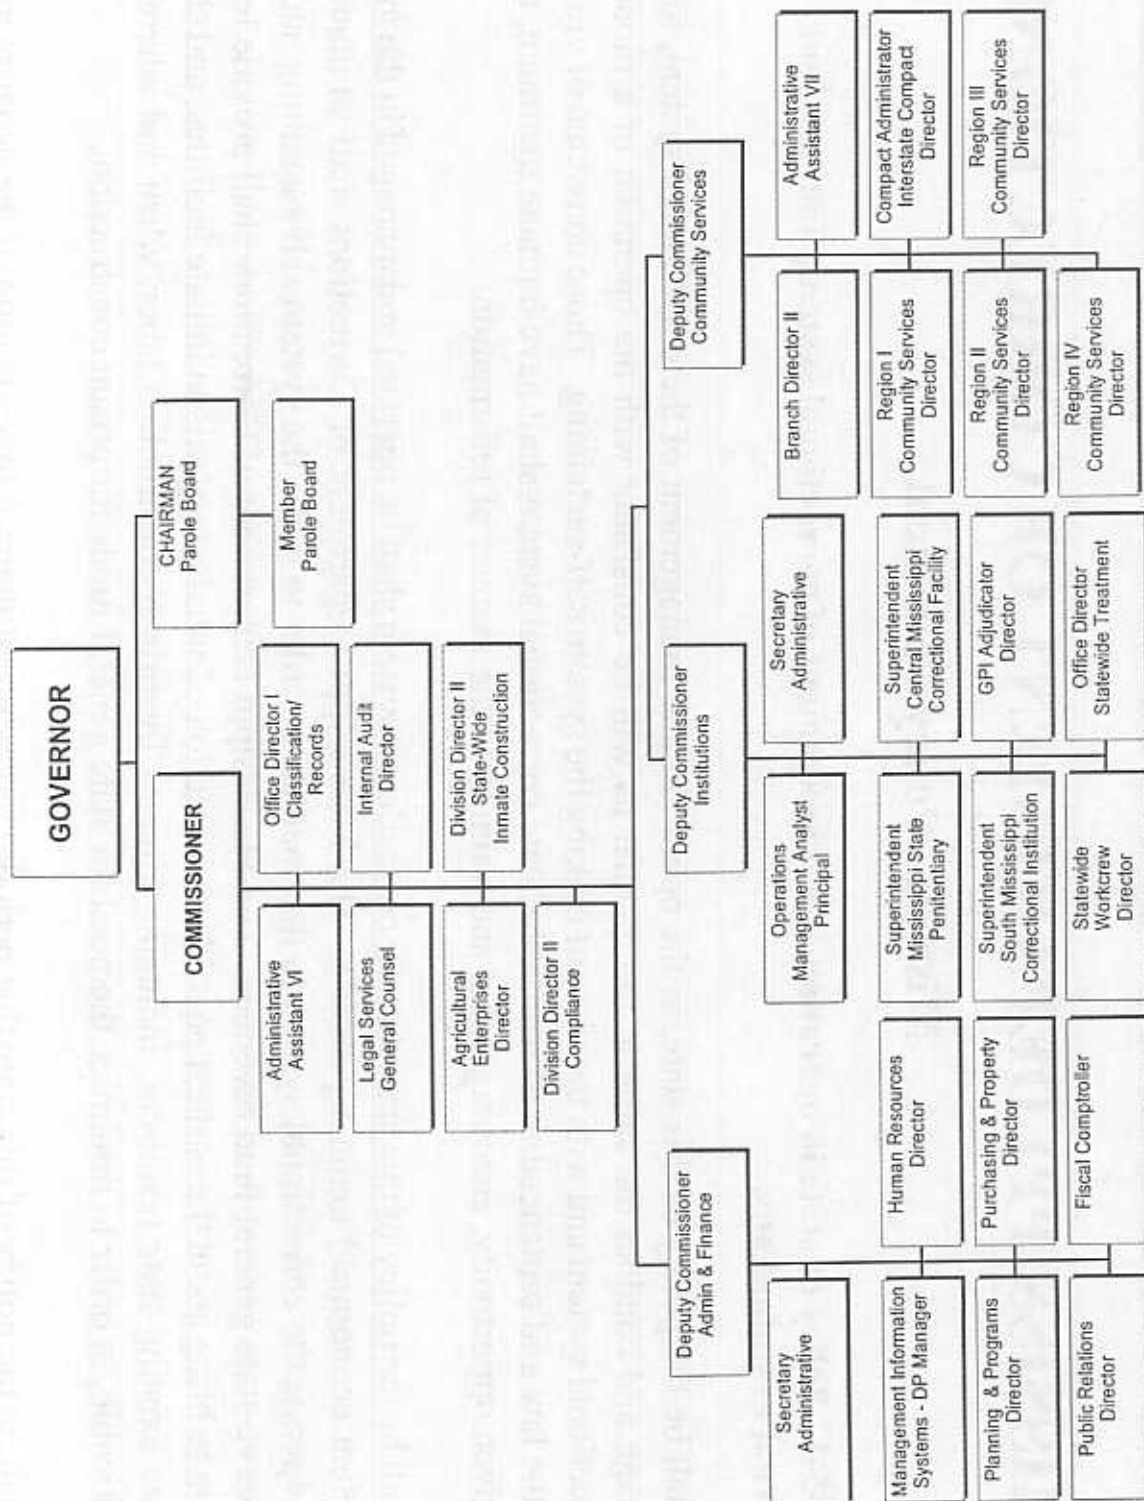

§47-5-1. Policy of state in operation and management of correctional system; independent internal examinations.

It shall be the policy of this state, in the operation and management of the correctional system, to so manage and conduct the same in the manner as will be consistent with the operation of a modern correctional system and with the view of making the system self-sustaining. Those convicted of violating the law and sentenced to a term in the state correctional system shall have humane treatment, and be given opportunity, encouragement and training in the manner of reformation.

It shall be the policy of this state that the correctional system shall be operated and managed in the most efficient economical manner possible. The Mississippi Department of Corrections shall so manage and operate the correctional system in that manner in order to make the system self sustaining and to conserve state general fund revenues. The Mississippi Department of Corrections shall provide leadership to bring about the earliest possible construction of satisfactory prison inmate facilities, and shall utilize existing state resources, including inmates for prison construction labor, when and wherever practicable, in order to minimize the need for state general funds for prison construction.

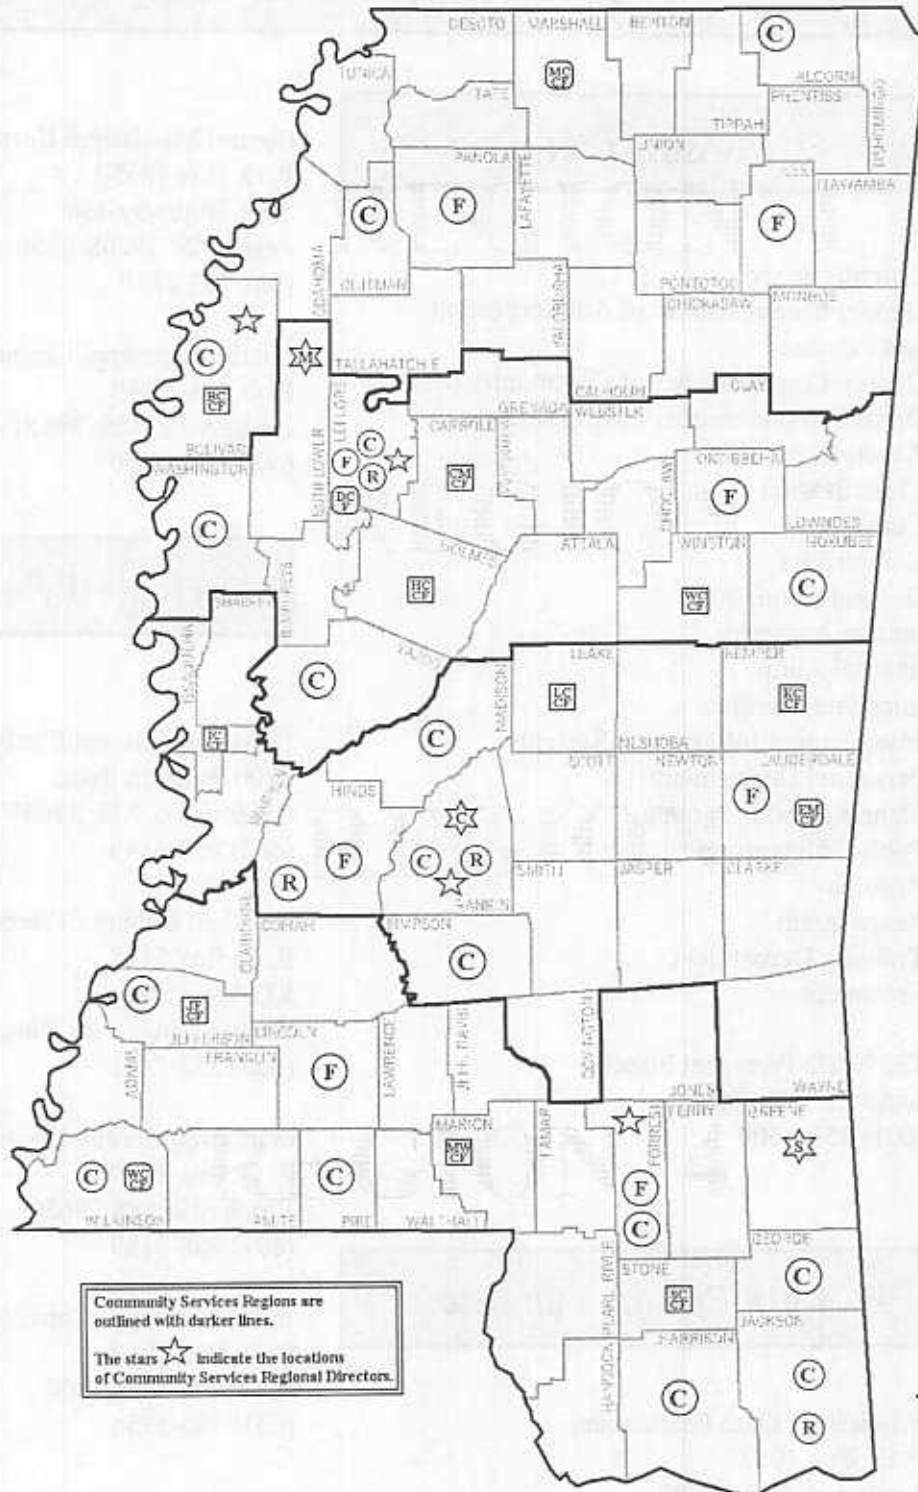

It shall be the policy of this state that periodic independent internal investigation of the department shall be conducted to ensure the implementation of state correctional policies.

DIVISION OF COMMUNITY SERVICES

AREA OF RESPONSIBILITY

The Community Services Division is responsible for supervision of offenders who live and work in the community. These include offenders sentenced to probation, pre-trial diversion or a restitution center. The Community Services Division is also responsible for offenders released to Parole or Earned Release Supervision, offenders sentenced to the Intensive Supervision Program by the Courts or incarcerated inmates released by action of the Joint Placement Committee, inmates released under Medical Release, and inmates in CWC's.

ORGANIZATIONAL STRUCTURE

A Deputy Commissioner heads the Community Services Division with a staff at the Central Office. The Records Department and Interstate Compact Office are located at the Central Office.

The state is divided into four geographical areas and Community Services Directors manage these regions. They are responsible for all Field Office staff, Community Work Centers, and Restitution Centers in their region.

GENERAL FIELD SUPERVISION

During FY 99 there were 194 authorized field officer positions in Community Services. These officers supervised an average of 15,330 offenders each month.

As officers of the court, they are responsible for completing pre-post sentence investigations on all convicted felons, investigating violations, issuing warrants, and initiating and participating in revocation hearings. Their duties included the completion of all pre-release investigations for the Parole Board and compact investigations. In addition to routine and reasonable suspicion drug testing of offenders/inmates, Field Officers are responsible for randomly drug testing 15% of the population each month.

They are responsible for the collection of supervision fees, as well as the verification of restitution, court costs, fines, and positive assay fees. Officers successfully discharged 5,489 offenders this year and filed 2,109 revocations.

Field Officers with specialized caseloads had an average of 16 inmates under supervision. Those with regular caseloads had approximately 100 offenders under supervision. The remaining Field Officers were assigned to Restitution Centers.

Authorized Field Officer Positions	194
Average Monthly Offender Population	15,330
Supervision Fees Collected	\$3,682,578
Other Fee Collections Monitored	\$7,104,697
Pre- and Post-Sentence Investigations Completed	11,093
Pre-Release, Compact Investigations Completed and Other Investigations	11,314

SERVICES/PROGRAMS

INTERSTATE COMPACT SERVICES

The State of Mississippi participates in the Interstate Compact for Adult Offenders. Under the terms of the Compact Agreement, Mississippi provides courtesy supervision to probationers and parolees from other states in exchange for courtesy

supervision of Mississippi offenders residing in other states. All investigations and reports pertaining to the transfer of offenders into or out of the State, as well as correspondence regarding their progress and violations, are the responsibility of the Interstate Compact Office.

Mississippi Parolees Receiving Courtesy Supervision in Other States	265
Mississippi Probationers Receiving Courtesy Supervision in Other States	909
Total Number Mississippi Offenders Receiving Courtesy Supervision in Other States	1,174

Parolees From Other States Receiving Courtesy Supervision in Mississippi	461
Probationers From Other States Receiving Courtesy Supervision in Mississippi	1,153
Total Number Offenders From Other States Receiving Courtesy Supervision in Mississippi	1,614

INTENSIVE SUPERVISION PROGRAM (ISP)

The Intensive Supervision Program (ISP) is a program designed to provide an accelerated level of supervision in a community setting to offenders who would otherwise be incarcerated. It includes offenders sentenced directly from the court, as well as incarcerated offenders selected by a Joint Placement Committee. Although residing in the community, all offenders are inmate status and can be immediately placed in an MDOC facility upon violation of the program.

limited movement by the offender in the community, restricting him/her to activities such as employment, worship services, treatment, etc. The officer accomplishes this with the use of electronic monitoring equipment, as well as numerous contacts with the offender, his family, and his employer. In addition to the strict surveillance, officers develop a case plan for the offender, concentrating on problems in the areas of employment, education, substance abuse, relationships and environment.

Officers carrying smaller caseloads, ensure very

F.R.E.E.

F.R.E.E. (Facing Reality Educationally and Emotionally) is a program designed to assist Field Officers in assessing, treating, and monitoring offenders on their caseload who have a drug problem. Eight (8) Treatment Coordinators are located at various locations around the state providing services to offenders in multiple counties.

Coordinators assess offender treatment needs, refer to the appropriate treatment and monitor offenders progress. In addition, they teach a structured life skills curriculum twice a month to assist offenders in other areas of their life that have been affected by their substance abuse problem.

Number Who Unsuccessfully Completed In-Patient Treatment	79
Number Who Participated In Out-Patient Treatment	1,263
Number Monitored This Year	1,613

PRE-TRIAL DIVERSION

The Pre-Trial Diversion Program is an alternative to felony conviction in which a defendant voluntarily submits to a period of supervision which may result in the dismissal of the charge against him if the period of supervision is successfully completed. The supervision period ranges from six (6) months to three (3) years and termination from the program is made in court by a motion from the Office of the District Attorney.

In FY 98, there was one (1) active Pre-Trial Diversion Program in the state. Community Services provided field personnel to screen for eligibility and supervise defendants referred to the program by the Office of the District Attorney. The Field Officer assigned to the program supervises a monthly average of 92 offenders.

RESTITUTION CENTERS

Restitution Centers are community based intervention programs serving as a diversion for marginal risk offenders from incarceration in a state prison. Offenders are sentenced to reside in the Center and participate in the program as a condition of their probationary sentence. Sex offenders, offenders with lengthy criminal records, and unemployable offenders are prohibited from entering the program.

Residents of the center are assisted in obtaining employment and money earned is distributed to

crime victims for restitution, courts for court cost and fines, MDOC for room and board, and the remainder, after taxes, goes to the offender's family or the offender's holding account. Upon completion of the program, residents are transferred to a Field Officer and remain under supervision for the remainder of their probationary sentence.

There are currently four (4) Restitution Centers operating in the State. Plans are underway for additional centers in the future.

Restitution Centers

COMMUNITY WORK CENTERS

A Community Work Center (CWC) is a facility located in various communities with a program designed to provide a gradual, systematic reintroduction of an offender into community life. Minimum risk inmates who have gone through an extensive screening process are placed in a CWC for the remainder of their sentence.

Minimum custody inmates assigned to these centers provide labor at no cost to state, county, and city units of government and school districts. Typically, these units house approximately 75

inmates who perform a wide range of tasks ranging from bridge repair and road work to water, sewer, and sanitation details, and many other jobs. During FY 99, CWC inmates provided nearly \$10 million of labor to various governmental entities.

The CWC is designed to facilitate the inmate's reentry into society. Alcohol and drug counseling, literacy classes, recreation and religious programs, Adult Basic Education and GED preparation are available to inmates housed in the CWC's.

**ALCORN COUNTY
COMMUNITY WORK CENTER**

Opened 1979
Size 2.8 acres
Capacity 60
Man-Hours Provided 118,391
Cost Savings \$609,714

TREATMENT

ADMINISTRATIVE REMEDY PROGRAM

MISSION

Effective April 18, 1994, the Mississippi Department of Corrections, pursuant to 42 U.S.C. section 1997, entitled "Civil Rights of Institutionalized Persons Act" (CRIPA) and part 40 of title 28, code of federal regulations, along with sections 47-5-801 et. seq. Mississippi code, 1972, annotated, installed in all of its institutions and facilities a formal administrative remedy mechanism for use by all inmates committed to the custody of the Department.

The Administrative Remedy Program exists under a Federal Court Order which states that the Courts shall not entertain any grievance or complaint of an inmate incarcerated by the MDOC which falls under the purview of Administrative Review Procedures unless and until such inmate shall have exhausted the remedies as provided in such procedures and attached a certificate from the Administrator of the Program to that effect.

It is the policy of the Mississippi Department of Corrections that each inmate shall be entitled to invoke the Administrative Remedy Program regardless of any disciplinary, classification, or other administrative or legislative decision to which the inmate may be subject. The good faith use of the Administrative Remedy process by inmates and the good faith participation in the Administrative Remedy process by inmates and staff will not result in any informal or formal reprisal. Any action or threat of action against anyone for the good faith use of or good faith participation in the Administrative Remedy procedure is strictly prohibited.

APPLICATION OF THE ADMINISTRATIVE REMEDY PROGRAM

The Administrative Remedy Program applies to all employees of the Mississippi Department of Corrections and all inmates committed to the custody of the Mississippi Department of Corrections. This includes the inmates housed at the MS State Penitentiary, Central MS Correctional Facility, South MS Correctional Institution, Community Work Centers (C.W.C.'s), Restitution Centers, House Arrest Programs, County Jails and the Governor's Mansion. Also included are the private prisons and county regional jail facilities. The private prisons designate an ARP coordinator to work with the program and act as a liaison between the inmates and the Adjudicator's office. At the county regional jail facilities, the Warden designates a First Step Respondent and the Warden is the Second Step Respondent. The Commissioner is the third and final step respondent whether it be State facilities or private facilities.

Inmates may use a Request for Administrative Remedy for situations arising from policies, conditions, or events within the Department of Corrections that affect them personally, including but not limited to the following:

1. Lost Property Claims
2. Staff Conduct
3. Conditions of Confinement
4. Policy and Procedure
5. Incidents
6. Reprisals for using this Process
7. Mail and Packages
8. Classification (to include discipline)

ADULT BASIC EDUCATION

MISSION

The underlying philosophy of the Education Department can be expressed in two statements. First, we believe that every human being, regardless of background or station in life, has worth, dignity, and potential. Second, we further hold that the degree to which any individual effectively functions in society is directly proportionate to the extent to which he realizes his self-worth and develops his potential. Our program, therefore, has as its primary objective not merely education for the sake of education, but rather self-actualization through education. As men come to realize more clearly through educational achievement, their basic worth and potential as human beings, there often develops a greater sense of self-acceptance and personal responsibility and the new self-concept thus generated produces a positive change in behavior that ultimately leads to even greater freedom for self-actualization. The ABE Department's mission is to provide educational services to the maximum number of inmates who lack a high school diploma or a GED.

APPLICATION OF ADULT BASIC EDUCATION

The ABE Department recruits students to maintain its enrollment. Recruitment involves ABE staff working with the Unit Case Managers in the designated units to locate those inmates who are in need of instruction. Students are tested to determine placement in one of four levels. The major responsibility of ABE is to provide a planned program of individualized instruction in language arts and mathematics. ABE is responsible for making the arrangements to give the GED test to those students who are ready. Students are processed out of school because of graduation, parole, sentence completion, Community Work Center placement, disciplinary reasons or transfers within the MDOC facilities, private prisons, and county facilities. The average number of school days per year is 230.

ALCOHOL AND DRUG PROGRAM

MISSION

The mission of the Mississippi Department of Corrections Alcohol and Drug Rehabilitation Program is to provide offenders, with substance abuse problems, a comprehensive program of treatment and motivational services which will reduce recidivism and influence a substance free, law abiding, responsible lifestyle when released from the program.

APPLICATION OF THE ALCOHOL AND DRUG PROGRAM

The Alcohol and Drug Program provides services through the following program components:

- Intake/Screening – Through the screening process the substance abuse and the severity of abuse is determined. The history and other information that will deal with the treatment of offenders are documented on the intake screening profile.
- Alcohol/Drug Treatment Center Programs – The A.D.T.C. Program, located at the Mississippi State Penitentiary provides information and education through groups, classes, lectures, films, individual counseling, and AA and NA group meetings to help and encourage the client to live a substance free life once released from prison. The model currently being used is a Therapeutic Community. All offenders participating are housed together in one unit with a 396 bed capacity.

Alcohol and Drug Counselors are located at the Central Mississippi Correctional Facility and provide a more traditional Alcohol and Drug Program whereby the Therapeutic Community Program is not used. Inmates are housed throughout the facility and are brought together for classes, groups, and meetings.

Alcohol and Drug Counselors are located in Regimented Inmate Discipline Programs located at the Mississippi State Penitentiary and the South Mississippi Correctional Institution.

- Unit Program – Offenders participate in this phase of the program either when they have completed primary treatment and are housed where Outreach/Aftercare Services are offered or if he/she has a desire to attend meetings under visitor status. These services are offered in designated housing units weekly.
- Community Work Center Program – The Alcohol/Drug Department provides counselors to work with the offenders housed in the CWCs to conduct AA and NA Groups on a weekly basis in an effort to encourage those offenders to live a substance free life.
- Follow-up Program – When offenders are released from the Mississippi Department of Corrections, those with severe problems are placed in the A&D Follow-Up Program. The A&D Counselors contact the clients each month following release to check on his/her progress. If the counselor cannot contact the client, contact is made with the client's family or parole officer. The counselor uses this contact to encourage the client to attend AA or NA and to continue to live substance free. Pre-Release has developed a component in 3 Community Work Centers. This program is modeled with a design for successful re-integration of participants into the free world.

- In addition, an 8-week program has been implemented for the offenders in Unit 28 identified as HIV positive. Also, the Alcohol &

Drug Department, in partnership with the Pre-Release Program, has developed a component in 3 Community Work Centers.

INMATE LEGAL ASSISTANCE PROGRAM

MISSION

The Inmate Legal Assistance Program (ILAP) program is designed to provide legal assistance to all State inmates housed within either the Mississippi State Penitentiary, Central Mississippi Correctional Facility, South Mississippi Correctional Institution, any of the Private Prison facilities, Community Work Centers or approved County Jails. The organizational structure of the ILAP is set up to ensure that all offenders have an opportunity to meet with an Attorney and to receive computer generated research and forms upon request. Each of the three (3) State Prison facilities have a designated Attorney who is responsible for providing aide to their facilities' offenders as well as the CWC's and County Jails within their area. The statewide director, located in the Jackson Central Office, oversees the entire program at each facility. The private facilities are responsible for providing an attorney for conferences and for fulfilling any legal requests from the inmates housed within their facility.

APPLICATION OF THE INMATE LEGAL ASSISTANCE PROGRAM

The ILAP Director is responsible for ensuring that inmates are afforded access to the Courts, provided

legal material and receive answers to any legal questions, which they may not understand. The Director does not prepare any legal briefings, any legal motions, nor represent the offender as his/her attorney. In the case of an illiterate inmate, legal assistance will draft legal work according to the inmate's instructions. ILAP does not provide legal assistance for matters other than the inmate's current charge, post conviction and conditions of confinement lawsuits. The Director maintains a record of all inmates who request assistance and the date and type of assistance that is provided.

Inmates mail their request forms to the ILAP office where it is reviewed on a "first come, first serve" basis. The ILAP Director evaluates the request according to the inmate's case and responds accordingly or denies the request with a detailed reason for the denial. Inmates requesting specific cases, statutes, etc. are provided same according to the procedures. Inmates requesting cases, statutes, etc., that are relevant to their cases provide the Director with a synopsis of their case and research is done by computer for specific law on point with their case.

PRE-RELEASE PROGRAM

MISSION

The Pre-Release Job Assistance Program's primary purpose is to prepare offenders to be successful in the workplace upon their release from prison. The Program's services and activities are designed to focus on improving the offender's employability, social and human relations skills in order to remove them from the State's tax roll to an employer's payroll.

APPLICABILITY OF THE PRE-RELEASE PROGRAM

The major duties and responsibilities carried out by the Pre-Release Program are categorized into eight primary services: Employability Skills Training, Counseling, Job Development, Residence Development, Remedial Education, Adult Literacy in the Workplace, Transportation and Follow-up/Aftercare. Pre-Release Programs are located at the Mississippi State Penitentiary, Central Mississippi Correctional Facility, South Mississippi Correctional Institution, Flowood

CWC/Pre-Release Center, Pike CWC/Pre-Release Center, and Quitman CWC/Pre-Release Center.

RECIDIVISM

The Pre-Release Program has conducted a recidivism study for Fiscal Years 1992-93 through 1997-98 continuous. The current recidivism rate is .30 compared to a national average of .625. As expected, the highest rate of recidivism occurs within the first year of release.

STATISTICS

From 1975 - 1999, approximately 13,425 offenders were served in the Pre-Release Program. Ten thousand, seven hundred seventy were placed in jobs upon release. The job placement rate is 80%.

RELIGIOUS PROGRAMS

MISSION

The Religious Programs Department has a mission to serve the inmate population and institutions by promoting and delivering quality spiritual life services in the areas of worship, religious education, and crisis counseling. It seeks to achieve the highest professional response of staff chaplains and volunteers involved in the delivery of a variety of religious activities and to integrate Religious Programs Department staff and services into an institutional response toward meeting the needs of the inmate population.

APPLICATION OF THE RELIGIOUS PROGRAMS

The Mississippi State Penitentiary, the Central Mississippi Correctional Facility, and the South Mississippi Correctional Institution have full-time Chaplains providing a wide range of religious

services. In addition, a large number of volunteers have been recruited and, under the direction of the Chaplains, provide services to all inmates in need. Staff is responsible for coordinating emergency suspensions, delivering religious services and sacraments, providing pastoral counseling, and coordinating and directing religious education programs. In addition, an orientation at the Central Mississippi Correctional Facility Reception and Classification is provided to obtain information that may be necessary for emergencies as inmates progress through the system. This is also the best opportunity to confront negative attitudes and behaviors of newly adjudicated offenders. The Director of Religious Programs provides guidance to the Chaplains located in the private prisons and assists with the development of volunteers in the County Regional Facilities and Community Work Centers.

THERAPEUTIC RECREATION

MISSION

The mission of the Therapeutic Recreation Department is to provide a holistic custodial environment that allows offenders the opportunity to recreate themselves in the area of leisure time management for the conscientious reduction of negative lifestyle habits. Activities diversification, greater inclusion of the physically and mentally challenged offenders and wellness programs are significant parts of the overall therapeutic recreational program.

APPLICATION OF THERAPEUTIC RECREATION

A large number of recreational activities are available to inmates housed within the Mississippi State Penitentiary, Central Mississippi Correctional Facility, South Mississippi Correctional Institution, Private Prisons, Community Work Centers

and County Regional Jails. Based upon their location within the system and their custody level, the following activities may be available to them: softball, volleyball, tournament horseshoes, walking programs, privileged weight training, board games, video viewing, frisbee throws, basketball, aerobics, geriatric sewing program, wheelchair basketball, health education, and fitness classes. In addition, since January of 1999, six public library organizations have donated 14,428 books through a "weeding" process. After being inventoried through an extensive process at the Central Mississippi Correctional Facility, this inventory has created ten new libraries in ten different CWCs statewide. Two new regional libraries have been created as well as one private prison library. Upgrading has been implemented at existing libraries at MSP, CMCF and SMCI with an inventory of 4,259 books.

VOCATIONAL EDUCATION

MISSION

The underlying philosophy of the Vocational Education Department can be expressed in two statements. First, we believe that every human being, regardless of background or station in life, has worth, dignity, and potential. Second, we further hold that the degree to which any individual effectively functions in society is directly proportionate to the extent to which he realizes his self-worth and develops his potential. Our program, therefore, has as its primary objective not merely education for the sake of education, but rather self-actualization through education. As men come to realize more clearly through educational achievement their basic worth and potential as human beings, there often develops a greater sense of self-acceptance and personal responsibility and the new self-concept thus generated produces a positive change in behavior that ultimately leads to even greater freedom for self-actualization. The mission of the Vocational Education Department is to provide vocational training to the maximum number of inmates who lack a vocational trade.

APPLICATION OF THE VOC ED PROGRAM

On entering the program, the student is given diagnostic tests to determine his placement. He is

then placed in the trade area where success is possible. The program is individualized to the point that it is self-paced and is geared to the individual's ability. Trade and industrial education provides instruction for the development of basic manipulative skills, safety judgement, technical knowledge, and occupational information for the purpose of fitting persons for useful employment.

We feel that the trades that are offered are areas that will always have a big demand for workers. Vocational classes taught at the Mississippi State Penitentiary are: Carpentry, Auto Body Repair, Auto Mechanics, Diesel Mechanics, Heating/Air Conditioning & Refrigeration, Machine Shop, Masonry and Tile, Communications Systems Installer (Radio-TV), Marine Engine Repair, Welding, Sheet Metal, Electrical, Cooking & Baking, Agri-Business/Catfish, Plumbing and Pipefitting, and Related Studies. Programs taught at Central Mississippi Correctional Facility are Business Technology, Industrial Sewing, Cosmetology, Family Dynamics, Upholstery, and Related Studies. Programs taught at South Mississippi Correctional Institution are Auto Body Repair, Welding, Vehicle & Mobile Equipment Mechanics, Plumbing & Pipefitting, Electrical, and Related Studies.

Central MS Correctional Facility	164	39
South MS Correctional Institution	174	56

REGIMENTED INMATE DISCIPLINE (RID) PROGRAM

Instituted by MDOC in 1985, the RID Program combines a A "boot camp" approach with psycho-correctional interventions to provide an alternative to long term incarceration for selected offenders. The recidivism rate is generally lower for RID participants than for the inmate population at large. The results are a substantially savings in prison costs.

Initially, RID heavily emphasized military style instruction, based on instilling discipline, respect for authority, and self-esteem. Gradually, the program has been modified to encompass a variety of rehabilitative and treatment elements including alcohol and drug, psychological, and employment counseling, ABE, and discipleship study. Further, RID incorporates community service projects and labor tasks to instill a work ethic.

A total of 777 male participants were processed and sentenced by all 22 Circuit Court districts through the program, of which 21 were diverted due to some medical problems or other exclusion criteria. Of the remaining 756 participants, 47 were terminated or not released from the program due to non-compliance or being a poor risk for probation. The resulting 708 (94%) successfully completed and were released on probation.

Since its inception in April of 1985, and through FY 99, 7841 male participants have entered RID at MSP, and 6822 have graduated.

The female RID unit at CMCF has had approximately 835 participants in its program since its inception in March 1987. The program was transferred to the satellite facility in Flowood at the beginning of CY 97. This program typically has 18-20 participants on a monthly basis.

Currently, funding for administrative, paramilitary and security staff for the 3 RID programs is provided by each of the host institutions' general operating budgets. Funding for non-paramilitary treatment staff comes from a combination of state, federal, and church sources and varies for each institution. Accordingly, program design differs depending on available funding and partnerships between institutions and service providers, and subsequent coordination of program components.

Efforts are underway to develop Community Service and Pre-Release Components at RID/SMCI like those in place at RID/MSP.

Regimented Inmate Discipline Program Phases

ACCOMPLISHMENTS

From July '98 through June '99, 760 male offenders entered RID (409 at SMCI and 351 at MSP). During that time 709 were released under the "Earned Probation Program." RID/Earned Probation accounts for approximately 18% of all intakes and 21% of all releases systemwide.

During FY99 RID participated in 19 community service projects. These projects totaled 41,336 man-hours. At \$5 per hour, this is \$206,626 worth of work within these communities for which additional tax revenues would have been spent. Otherwise, this is work that may have gone undone without RID. RID/SMCI accounted for ten (10)

projects for a total of 21,232 man-hours x \$5 per hour = \$106,106. RID/MSP accounted for nine (9) projects for a total of 20,104 man-hours x \$5 per hour = \$100,520.

From July '98 through June '99 (April '99—June '99 at RID/SMCI), 405 participants were enrolled in Therapeutic Pre Release at all three RID programs. Of those enrolled, 307 were processed and 256 (83%) were placed in jobs. Due to funding criteria all participants are not officially enrolled. However, those not officially enrolled receive employability skills training as well as some remediation in academic skills, such as math and language.

AGRICULTURAL ENTERPRISES

The mission of the agricultural enterprise program is to decrease inmate idleness and to produce consumable goods for inmates. During FY 99 inmates worked 731,584 hours in the agricultural program.

For the crop year 1999 Agricultural Enterprises planted 1,932 acres of vegetables, 807 acres of rice, 1,157 acres of wheat, 3,141 acres of soybeans and 1,532 acres of cotton.

Non-Cash Sales for vegetables and egg production totaled \$1,663,784. A total of 3,060,222 pounds of vegetables and a total of 500,040 dozen eggs was delivered to the MDOC Food Service Department. The poultry facility is in full production with a 36,000 - layer capacity. Construction was completed for the vegetable processing facility during the fiscal year.

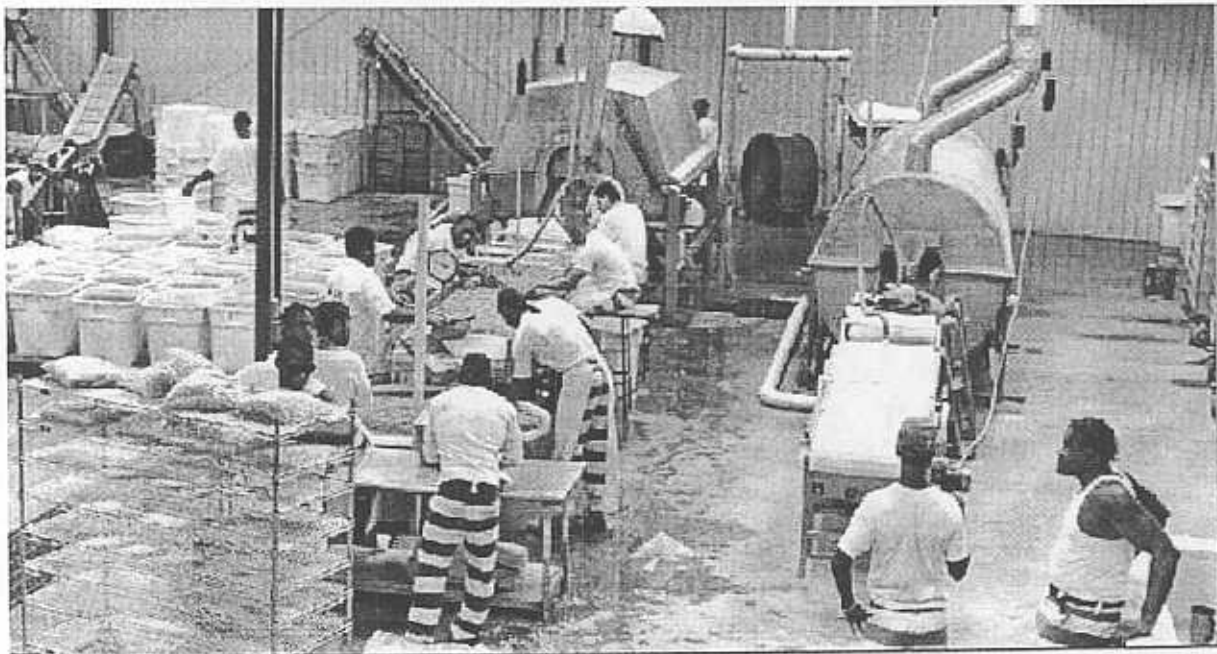

The swine operation weaned 1,009 litters averaging 8.42 pigs per litter with 8,587 pigs weaned. The farrowing equated to an average of

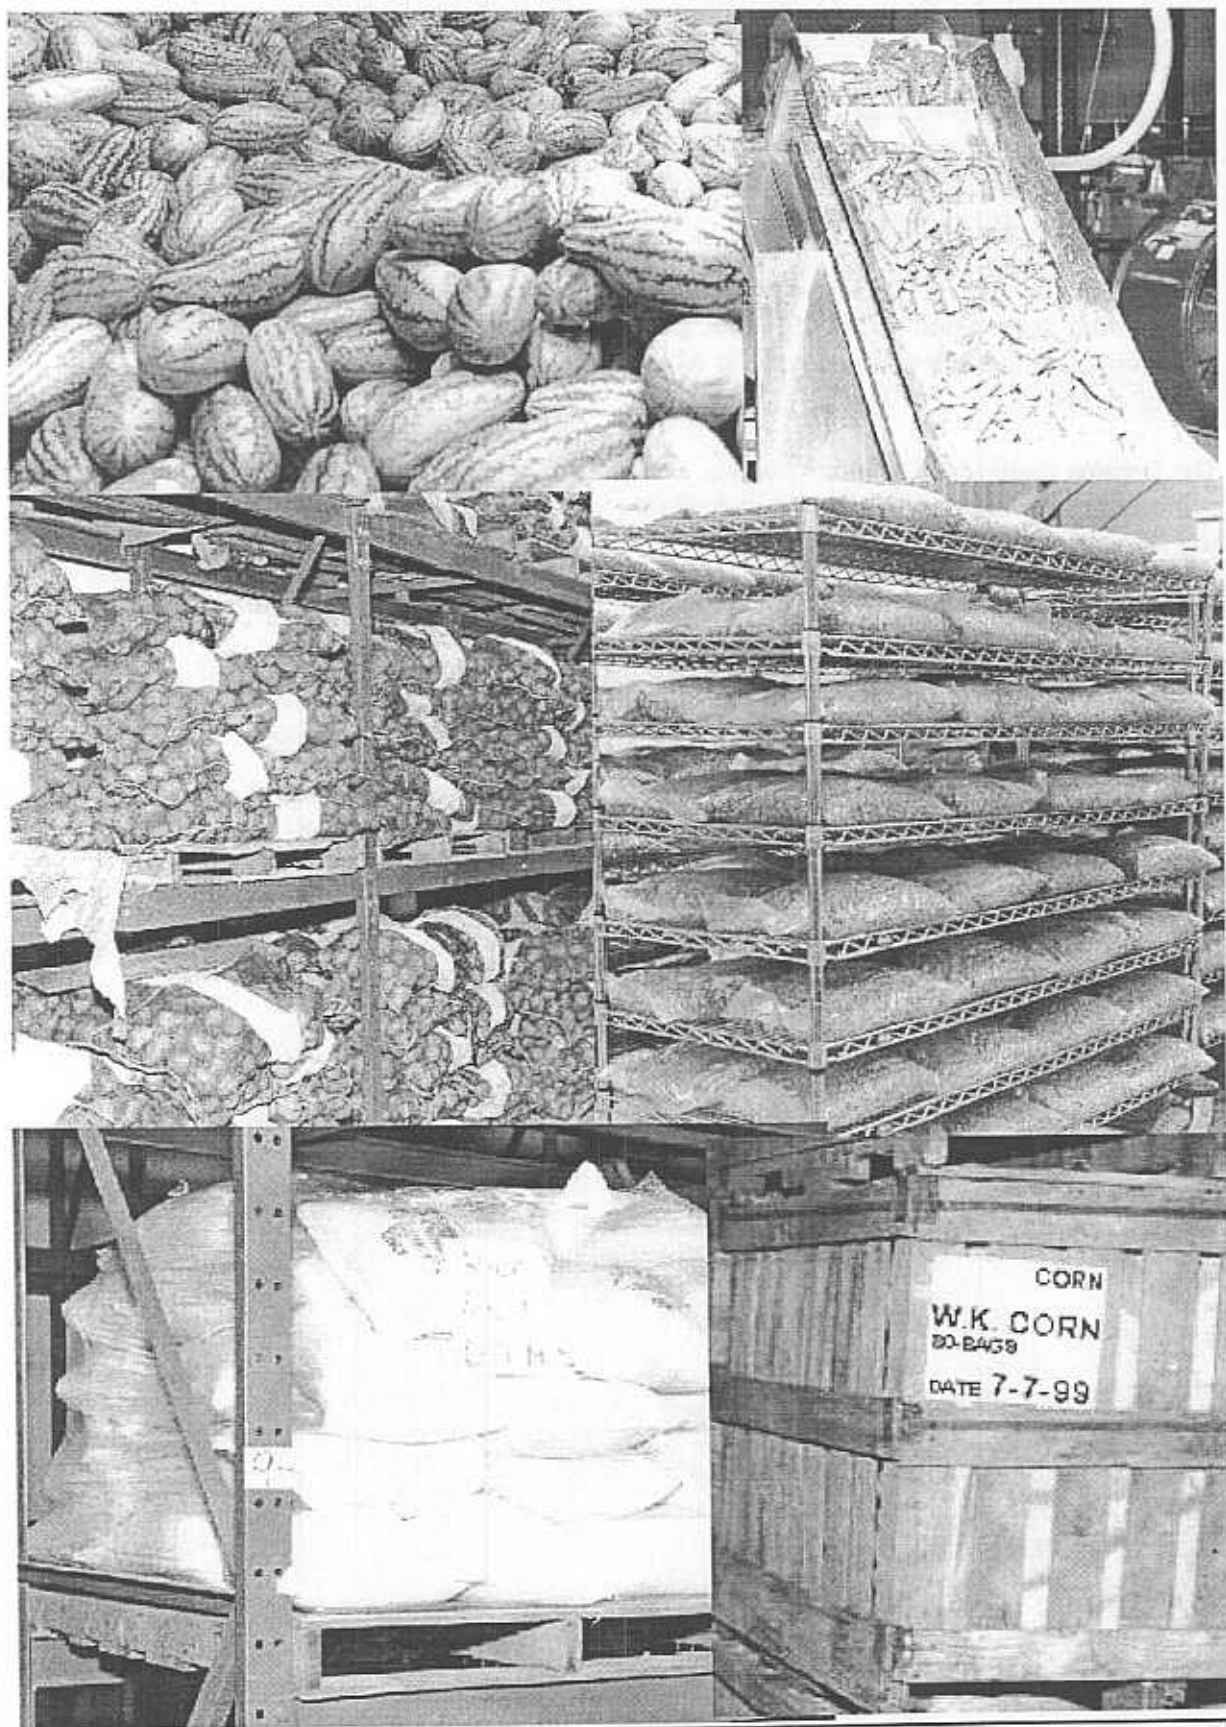

2.27 litters/sow annually. Feeder hogs marketed totaled 6,533 for \$403,236. The swine breeding herd produced 451 gilts that were cycled back into the breeding program. The current inventory for breeding, farrowing, nursery, and finishing is 4,796.

The inventory of commodities carried over from FY 99 had a value of \$107,840. This figure includes the value of seed, fertilizer, and chemicals not expended during FY 99.

In FY 99 Agricultural Enterprises began with a Special Fund balance of \$1,954,875 after FY 98 expenditures. During FY 99 revenue totaled \$3,203,764. Revenue and expenses are based on the August 31, 1999 SAAS FY 99 reports.

On June 30, 1999, the Agricultural Enterprises Special Fund had a balance of \$1,687,307. Cash income including deposits in transit totaled \$3,203,754.

INTERNAL AUDIT DIVISION

During Fiscal Year 1999, one Director, nineteen Investigators, two Internal Auditors, three Gang Threat Coordinators, three Phone Monitors, and four secretaries staffed the Division.

The major functions of IAD investigations includes drug investigations/interdictions, gang monitoring, compliance reviews, and the recapture of escapees.

The Division continues to assist city, county, state, and federal law enforcement agencies in conducting investigations.

Gang Threat Coordinators at each of the institutions continue to validate reference gang activity of gang members and monitor and relay gang intelligence to the other institutions.

The Internal Audit Division assist the MDOC Personnel Division in conducting criminal background checks on applicants seeking employment with MDOC.

Internal Auditors conduct various audits at each institution, satellite facility and field office to ensure their compliance with MDOC Policies and Procedures.

Internal Audit Division staff continue to provide training in-house and for other law enforcement entities.

The Unit works closely with the private prisons and monitors incidents and complaints that occur at these facilities.

During FY 99, the Internal Audit Division processed cases involving:

> Criminal Indictments	79
> Pending Criminal Indictments	49
> Administrative Disciplinary Actions	137
> Pending Disciplinary Actions	17
> Resignations while under Investigations	<u>32</u>
TOTAL	314

MOBILE WORK CREWS

In September 1995, the Mississippi Department of Corrections initiated the Mobile Work Crew Program. This program operates out of the three main prisons and provides skilled labor for municipalities, county and state government entities that do not have normal access to this free inmate labor. However, during FY 99, a correctional officer shortage at SMCI prevented the mobilization of this work crew.

These work crews consist of twelve to fifteen non-violent inmates who have general construction

skills and meet the Agency's selection criteria. Two correctional officers are assigned to each crew to ensure that all agency security regulations are maintained and to facilitate timely and effective communications.

During the past fiscal year, nearly 34,000 hours of inmate labor was provided to these various government municipalities through this valuable program. This represents a direct labor cost savings of over \$172,000.

FISCAL YEAR 1999

Source: DCOZSR20 and Community Services Monthly Reports

FY 99 LEGISLATIVE SESSION BILLS THAT WERE ENACTED INTO LAW WHICH AFFECTED THE MDOC

Brief Summaries

House Bill #149

- ▶ HB# 149 amends Section 90-20-5 to provide that only offenders who have been convicted of nonviolent offenses may participate in a community service restitution program.
- ▶ The bill also deleted the provision which requires an offender to have had a verifiable residence in Mississippi before he may be placed in a community service restitution program.
- ▶ Effective July 1, 1999.

House Bill #553

- ▶ HB# 553 amends Section 47-5-66 to extend from July 1, 1999, to July 1, 2001, the date on which the law that regulates the leasing of prison lands to private entities will be repealed.
- ▶ Effective July 1, 1999.

House Bill # 554

- ▶ HB# 554 amends section 47-5-731 to extend from July 1, 1999, to July 1, 2001, the date on which the Prison Overcrowding Emergency Powers Act will be repealed.
- ▶ Effective July 1, 1999.

House Bill # 555

- ▶ HB# 555 amends Section 47-5-911 to extend from July 1, 1999, to July 1, 2001, the date on which the laws that regulate the housing of state offenders in county jails will be repealed.
- ▶ Effective July 1, 1999.

House Bill # 556

- ▶ HB# 556 amends Section 47-5-1015 to extend from July 1, 1999, to July 1, 2001, the date on which the laws that regulate the intensive supervision program will be repealed.
- ▶ Effective July 1, 1999.

House Bill # 557

- ▶ HB# 557 amends Section 47-5-1123 to extend from July 1, 1999, to July 1, 2001, the date on which the laws that regulate the Special Needs Prison Program of 1994 will be repealed.
- ▶ Effective July 1, 1999.

House Bill # 558

- ▶ HB# 558 amends Section 47-7-19 to extend from July 1, 1999, to July 1, 2001, the date on which the Community Services Revolving Fund will be repealed.
- ▶ Effective July 1, 1999.

House Bill # 1113

‣ HB# 1113 authorizes an offender with trusty status, as defined by the classification committee to the Department of Corrections, to be awarded a trusty time allowance of 10 days reduction of sentence for each 30 days of participation in approved work programs while in trusty status.

‣ Effective on passage.

Senate Bill # 2332

‣ SB# 2332 amends Section 47-5-116 to require any prisoner committed to the Department of Corrections to be restrained when being transported and prohibits the release of a prisoner into the custody of a law enforcement officer unless the prisoner is being transported in a vehicle with a Biddle guard.

‣ If a prisoner is transported in a vehicle without a Biddle guard, the chief law enforcement officer may be assessed a civil penalty of \$1,500.

‣ The requirement does not apply to any vehicle used to transport prisoners in a work release program.

‣ Effective July 1, 1999.

Senate Bill # 2333

‣ SB# 2333 amends Section 47-5-931 to provide that Kemper County may operate a regional correctional facility with Neshoba County instead of Noxubee County.

‣ The bill also provides that the Department of Corrections may contract with Chickasaw County, George and Greene Counties, Yazoo County and any contiguous county for a regional facility to house state inmates.

‣ Effective on passage.

Senate Bill # 2852

‣ SB# 2852 requires the Department of Corrections to contract with the Department of Economic and Community Development for a training and work program for inmates to perform data processing entry at the Central Mississippi Correctional Facility.

‣ The bill also allows for delinquent juveniles or juveniles in need of supervision from the federal government or another state to be housed in a facility in Tallahatchie County.

‣ Effective on passage.

Senate Bill # 3050

‣ SB# 3050 requires the Department of Corrections to establish a work training program in conjunction with private industry to provide training to inmates in those trades in which there is a shortage of workers.

‣ Private industry will provide the training at the correctional institution.

‣ Effective July 1, 1999.

NOTE: See actual bills for complete description
